SPECIALIZING MASTER IN
**FASHION
ACCESSORIES &
JEWELLERY: DESIGN,
MANAGEMENT
& COMMUNICATION**

XIII EDITION - JANUARY 2026

GENERAL OVERVIEW

Today, **accessories make fashion.**

Shoes, jewelry, handbags, and hats are icons of style and taste, symbols of distinction and identity, and witnesses of the made in Italy quality.

For this reason, the major fashion brands always give more importance to accessories in their multiple interpretations requiring dedicated professionals. Therefore, the theoretical training in the classroom alternates with case studies and practical activities in the field, leading to the achievement of a fundamental objective: the acquisition of specific methods and techniques to face the world of work.

POLI.design's Masters

Specializing Masters combine academic strictness and business dynamics. These educational paths for graduate students include lectures, seminars, and workshops; they aim to transfer theoretical knowledge as well as practical tools to face the world of work from the very beginning.

The **Specializing Master in Fashion Accessories & Jewellery: Design, Management & Communication** is addressed to junior profiles of a 'hybrid' character, with the ability to combine specific design skills on particular product categories of the accessory supply chain (from jewelry to footwear, handbags, up to eyewear and hats), together with a knowledge of production processes and managerial strategies.

This robust specialization is typically acquired after several years of work experience and traditionally not trained within academic courses. The Specializing Master represents, therefore, an **accelerator of specialized skills**, able to make profiles immediately operational in a business context.

TRAINING OBJECTIVES

The **Specializing Master** provides the **methodological tools and the design skills** to become accessory designer, with professional application ranging from fashion to product and combining superior craftsmanship with high technology.

DIDACTIC PLAN

Teaching content:

- Creativity and Innovation;
- Sustainability and Circular Economy;
- Management;
- Fashion Design Modelling;
- Fashion Design Graphics and Representation;
- Hat Design;
- Eyewear Design;
- Watch Design;
- Jewelry Design;
